Sammu, a City of Light and Breeze

The breeze passing through the clusters of Sanbu cedar trees, the symbol of the city, is forever gentle. If you play in Sanbu no Mori Park, you will feel the warmth of nature with your whole body. The Kanto Fureai no Michi, which crosses through the city, is ideal for a stroll. And then there is the Kujukurihama coastal area, where the horizon continues forever, and the rural landscape that changes its appearance with the seasons. You can find the joys of living in this district in every casual scene.
